

nomado

The world is round. Our sms rates are flat.

Why this rate?

Because the world is global and online business has no border, or almost. we wanted to offer our customers a flat rate. We negotiated hard for this.

Imagine a new customer from Greece or USA needing to authenticate his account, your cost is flat. and your business model increases his value.

Of course if you need to make massive campaign in one specific country, we will adapt as much as possible this rate. We are happy to help.
